

# CLIENT SUCCESS STORY

AHIF held its third annual Bright Ideas TBI Camp at Auburn in June. Among this year's participants was Henry, who suffered traumatic brain and spinal cord injuries from a car accident in May 2022. These injuries significantly affected his speech, making him hard to understand and causing him to avoid interactions due to fear of misunderstanding.

AHIF facilitated a reduced-cost speech exam and a series of therapy sessions for Henry through the AU Speech and Hearing Clinic during the camp. AHIF is grateful to Auburn, United Way of Lee County, and donors for enabling this partnership and support.
