

United Way of Lee County Community Fund

The Community Fund aims to help qualified individuals with necessary expenses during times of extreme financial hardship. This fund primarily assists with power or gas bills and is generally reserved for elderly and disabled individuals residing in Lee County. Assistance may only be given to an individual a maximum of once per calendar year.

Success Story:

This year, the Community Fund was able to help a mom of three with payment on a power bill after she assumed responsibility for her parents' expenses after the death of her father.

The Community Fund tackles prevalent needs in our community from some of our most vulnerable populations. Having the funds available to assist these individuals in times of hardship brings us one step closer to a happier, financially healthy community.
